

# Road to Rescue

Romans \_\_\_\_\_

Romans \_\_\_\_\_

Romans \_\_\_\_\_

Romans \_\_\_\_\_

Romans \_\_\_\_\_

Romans \_\_\_\_\_

Explore God's road to rescue!

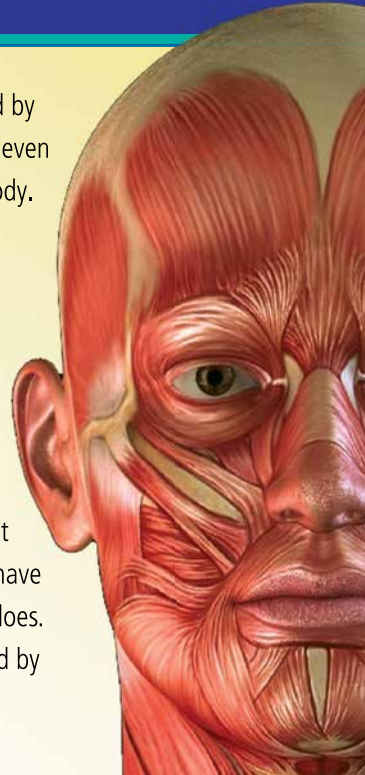

Follow the path and—in order—write on the blanks the white numbers you find.  
When you find all the numbers, look up and read the verses.

## MATTER OF FACT

**The complex human body** points to the fact that it was designed by someone. Many people want to believe that we evolved by chance, but even in our scientifically advanced age, we cannot fully imitate the human body.

- **The human eye is a marvel of engineering.** It has a highly efficient system of being cleaned and lubricated through tear glands. Tears even help the eye heal.
- **The body makes its own components, like tissue, bones, and blood.** It can even repair itself, unlike most machines.
- **No computer has ever had all the fascinating abilities of the human brain.**

Can we really believe that everything in the human body evolved, just at the right time? (If evolution didn't happen at the right time, life would have ended right there.) Evolution takes more faith to believe than creation does. What we see in the human body points to the fact that we were created by a powerful, wise, creative Being—the one true God (Romans 1:20)!

# DINO TOWN

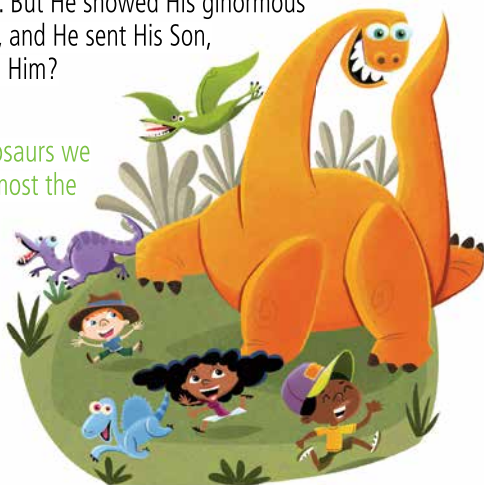

While a map helps us know how to get where we want to go, God gave us something better. He gave us His Word, the Bible, so we can know His plan for us and can make right choices. The new dinos in town have only an hour to get to the finish, and they have to make a few stops along the way. Unscramble the street names on the map so the dinos can get there in time.

They will start on C\_\_\_\_\_ Ave., turn right on R\_\_\_\_ R\_\_\_\_,  
right on M\_\_\_\_ S\_\_\_\_, and left on \_i\_\_\_\_\_ g A\_\_\_\_\_.

## SMARTY-SAURUS REX

God created ginormous creatures when He made dinosaurs. But He showed His ginormous love by what He did for humans. He made you in His image, and He sent His Son, Jesus, for you. Have you accepted God's love by believing in Him? Are you following what He says in His Word, the Bible?

- The enormous Argentinosaurus is one of the longest dinosaurs we know about. It could grow up to 130 feet long. That's almost the length of two semitrucks or almost four school buses.
- The tyrannosaurus (the name means "tyrant lizard") had the largest dinosaur teeth that we know about so far. Some reached 12 inches.
- The longest dinosaur eggs are theropod eggs found in North America and Asia. They are up to 2 feet long.

# DIG FOR TRUTH!

We learn about extinct dinosaurs in scientific books and documents, but as discoveries are made, the facts in those sources may become outdated. God's Word never changes and never needs to be updated. We can fully rely on it for the truth about God and His plan for us! Look up the following verses and summarize the answers to some of life's big questions.

*How did the world come into existence?*

Genesis 1:1

*How did a perfect world become broken?*

Romans 5:12

*What is the future for those who believe in Jesus?*

Revelation 21:1-4

*What is the future for those who reject Jesus?*

Revelation 20:11-15

*What is the most important decision you can ever make?*

Acts 16:31

**Answers**  
**Tracking the Days** Day 1: LIGHT, DARKNESS. Day 2: SKY, CLOUDS, DIVIDE WATER. Day 3: LAND, TREES, FLOWERS. Day 4: SUN, MOON, STARS. Day 5: WHALES, EAGLES, SHRIMP. Day 6: DINOS, HUMANS, DOGS. Day 7: GOD RESTED. God created the world by HIS WORD for His glory!  
**Dino Town**  
 Central Ave., Rock Rd., Main St., Dinoburg Ave.  
**Dig for Truth!**  
 God created it all. Adam sinned, and sin passed to all humankind. They will live in Heaven with God forever with no sin, pain, or tears. They will be thrown in the Lake of Fire for eternal punishment. Believe in Jesus and be saved.
